

international disputes

Veris has been engaged to provide consulting services, prepare damages calculations and give expert witness testimony on a variety of cross-border commercial disputes which have been resolved through international arbitration processes.

We have presented expert reports and testimony on matters before tribunals operating under the rules of the AAA, ICC and ARIAS. The international arbitration matters on which we have been engaged in recent years include:

- advising a major Swiss insurance company and its counsel in connection with a \$900 million dispute concerning the sale of the company's international insurance and reinsurance operations in what is believed to be the world's largest ever "baseball arbitration"
- assisting a major Latin American bottling company in a contractual dispute brought before the ICC concerning the value of an option to purchase certain related businesses within the region
- providing consulting services, evaluation of claims and expert witness testimony in several ARIAS arbitrations involving insurers and reinsurers in the London markets

*...authorized as an
"Ancillary Services
Provider" by the Dubai
Financial Services
Authority.*

In 2009, Veris and our strategic alliance partner, Delta Consulting Group, Inc. (Delta), established Veris Delta International Limited (Veris Delta) as a joint venture to provide consulting services to law firms, companies, regulators and other entities within the Middle East.

Veris Delta is incorporated in the Dubai International Financial Centre (DIFC) and has been authorized as an "Ancillary Services Provider" by the Dubai Financial Services Authority.

Veris Delta combines the resources of Veris and Delta to provide comprehensive consulting services in the following areas:

- accounting
- forensic engineering
- construction management
- litigation and expert witness services
- internal audit and risk management services

INTEGRITY / integritee / n. steadfast adherence to a strict moral or ethical code
